

## PROFESSIONAL AVIATION TRAINING

# FAR 61.156 Airline Transport Pilot Certification Training Program

### *2015 Pricing and Course Information*

The Airline Transport Pilot Certification Training Program (ATP CTP) fulfills the requirements of FAR 61.156. It includes both ground training and flight training segments.

The ground training segment bridges the gap between the knowledge of the commercial pilot and that which is expected of an ATP certificate holder, specifically in the areas of aerodynamics, automation, adverse weather conditions, turbine engines, and transport airplane performance in accordance with Advisory Circular 61-138.

The flight training segment is completed in a CRJ Level D flight simulator.

Upon successful completion of the ATP CTP and once all other requirements have been met, the candidate will be eligible to take the ATP written test. The pilot will become familiar with recognizing, avoiding, and recovering from errors which can occur when operating turbine-powered transport category airplanes in a complex and dynamic environment.

#### Course Curriculum

Course Module	8 Days
Ground School & Exam	31.0 Hours
Systems Integration Training	6.0 Hours
Brief/Debrief	7.5 Hours
Simulator (Pilot Flying)	6.0 Hours
Simulator (Pilot Monitoring)	6.0 Hours
<b>Course Cost</b>	<b>\$7,500</b>

**Prerequisites** – The pilot must possess a valid Commercial Pilot Certificate and Instrument Rating, or an ATP certificate, or equivalent foreign license.

#### Notes:

1. The simulator training will be conducted in a CRJ Level D simulator.
2. This course is required as a precursor to taking the ATP Written examination and although it covers many of the ATP Written examination topics, it is not a complete ATP Written examination preparation course.
3. Because crew coordination is required, a minimum of two attendees is required to conduct this course.
4. This course does not result in any additional ratings or certificates.

**Course Dates** – All courses are scheduled on request. Please contact the Learning Center listed below for scheduling.
